FOREST RESOURCE DEVELOPMENT AGREEMENT
ENTENTE SUR LA MISE EN VALEUR DES RESSOURCES FORESTIERES

DIRECTORY OF SECONDARY WOOD-USING INDUSTRIES IN ALBERTA
1989

Canada

Alberta

The Canada-Alberta Forest Resource Development Agreement is a subsidiary agreement of the Canada-Alberta Economic and Regional Development Agreement, which provides coordination and cooperation between the governments of Alberta and Canada in areas of Alberta's economic development.

The Canada-Alberta Forest Resource Development Agreement is funded equally by the governments of Canada and Alberta, from April 1, 1984, to March 31, 1989.

Its primary objectives are to ensure the long-term availability of timber supplies; to optimize timber uses; and to contribute to the growth and diversification of Alberta's economy.

The Agreement comprises three programs: reforestation; applied research, technology transfer and opportunity identification; and Public information, evaluation and administration. These programs are managed by a joint Directorate and are implemented by Forestry Canada and the Alberta Forest Service.

For more information, please call or write:

L'Entente Canada-Alberta sur la mise en valeur des ressources forestières est auxiliaire à l'Entente Canada-Alberta sur le développement économique et régional, qui vise à assurer la coordination et la coopération des deux gouvernements relativement au développement économique de l'Alberta.

L'Entente Canada-Alberta sur la mise en valeur des ressources forestières est financée à parts égales par les gouvernements du Canada et de l'Alberta, et a cours de 1er avril 1984 au 31 mars 1989.

Ses objectifs principaux sont assurer la disponibilité à long terme de réserves de bois; optimiser leur utilisation; et contribuer à la croissance et la diversification de l'économie de la province.

L'Entente comprend trois programmes: Reboisement; Recherche appliquée, transferts de connaissances techniques et relevé des occasions; et information, évaluation et administration. Ces programmes sont gérés par un Bureau de direction conjoint, et mis en oeuvre par Forêts Canada et le Service forestier de l'Alberta.

Bohning, R. A. 1990. Directory of Secondary Wood-Using Industries in Alberta 1989. Forestry Canada, Edmonton, Alberta and Canada-Alberta Forest Resource Development Agreement, Edmonton, Alberta. 142 pp.

ABSTRACT

The secondary wood-using industry in Alberta was surveyed in late 1989 and early 1990 by mail out questionnaires and telephone interviews of each firm. This directory provides information for each firm by industry location, telephone number, facsimile number, executive officer, number of people employed and a priority products listing.

ACKNOWLEDGEMENTS

This directory could not have been completed without the cooperation and consideration of the management and owners of the secondary forest products industry firms in Alberta. Their contribution is gratefully acknowledged.

The author wishes to thank Horst Ramanauskas, Manager, Secondary forest products, Alberta Economic Development and Trade and Diana Boylen, Chief, Forestry Resource Economics and Statistics, Forestry Canada for their support and efforts in promoting this directory. Appreciation is also extended to Steve Price, Marjorie Stephen, Stephen Szabo, David Carrigan and Wendy Fujczak for their invaluable assistance.

INTRODUCTION

This directory lists and describes the firms comprising the secondary users of wood and paper in Alberta. Secondary industries include all establishments principally engaged in the further processing or utilization of primary products. For ease of comparison, the format in most cases follows that of our previous publication; "Directory of Secondary Wood-Using Industries in Alberta - 1986." This 1989 directory does not include information on firms which principally manufacture electronic equipment, signs, signboards, agricultural machinery, tools, trailers, mobile homes or woodworking machinery. Neither does it include primary wood-using industries such as sawmills, pulp mills, plywood plants or related logging equipment firms. Firms in these industries were included in the 1986 directory but due to a firmer secondary wood products definition have now been dropped.

This update reflects the many changes that have occurred in the industry in the past 3 years. Changes have been brought about in part by the economic slow down in 1986 and the subsequent recovery and high turnover rate intrinsic to an industry largely composed of small businesses. The directory follows the secondary forest products classification as outlined by Heit and Bohning (1988). All firms found in this directory have been listed by their principal products into one of 21 Standard Industrial Classification (SIC) industry class codes as follows:[1]

SIC CODE	INDUSTRY CLASS
2541	Prefabricated Wooden Buildings
2542	Wooden Kitchen Cabinet and Bathroom Vanities
2543	Wooden Door and Windows
2549	Other Millwork Industries
2561	Wooden Box and Pallets
2581	Coffin and Caskets
2599	Other Wood Industries
2611	Wooden Household Furniture
2612	Upholstered Household Furniture
2649	Other Office Furniture Industries
2691	Bed Spring and Mattress Industries
2692	Hotel, Restaurant and Institutional Furniture and Fixtures
2699	Other Furniture and Fixtures
2721	Asphalt Roofing Industries
2731	Folding Carton and Set - Up Box Industries
2732	Corrugated Box Industries
2733	Paper Bag Industries
2791	Coated and Treated Paper Industries
2792	Stationery Paper Products
2793	Paper Consumer Products
2799	Other Converted Paper Products

---

[1] The individual firms listing by industry class SIC codes may not necessarily agree in all respects with Statistics Canada's specific classification due to variances in classification methods.

The secondary wood-using industry was surveyed in the latter part of 1989, and early 1990. Initially, a brief questionnaire was mailed out to all firms previously listed in the directory. This early effort was then supported and complemented by a more intensive telephone survey. Information on possible secondary wood-using firms was obtained from a number of sources, such as; the 1988 Alberta Manufacturers Index, the 1989 Business Opportunities Sourcing System (B.O.S.S.), and the 1989 Secondary Wood Products Manufacturers Directory (The first edition of a new American directory from the publishers of Forest Industries). Other business directories and Statistics Canada publications were also used for cross referencing purposes and as data sources.

The purpose of this directory is to:

1. bring buyers and sellers together;
2. identify possible markets for Alberta's primary wood products;
3. assist buyers to purchase Alberta manufactured goods;
4. characterize the secondary forest products industry in terms of number of firms, location, employment values and products;
5. update the last directory; and
6. generally help promote the secondary forest products industry;

This directory contains data on 618 secondary wood-using firms as well as providing information on organizations and associations considered relevant to the industry. A list of Alberta wood product brokers/wholesalers/suppliers and a table of metric conversion factors is also included.

The Canada-Alberta Forest Resource Development Agreement has also published the "Directory of Primary Wood-Using Industries in Alberta - 1988" which is available free of charge from Forestry Canada, 5320 - 122 Street, Edmonton, Alberta, T6H 3S5 or the Information Centre, Alberta Forestry, Lands and Wildlife, 9920 -108 Street, Edmonton, Alberta T5K 2M4.

HOW TO USE THIS DIRECTORY

Section I. WHITE PAGES

Consists of a listing of firms in alphabetical order. Included in this section are the name, address, executive officers, telephone number, facsimile (fax) number, staff size (by range) and products listing by order of importance to the firm.

Section II. YELLOW PAGES

Information arranged by products and services. It provides an alphabetic listing of products and services of the firms. If a firm produces a number of different products or services, it will be listed under each of the appropriate product headings.

Section III. BLUE PAGES

Contains a listing of information sources which may be of use to secondary wood products manufacturers or other users of this directory. Included are a directory of organizations and associations relevant to the secondary wood products industry, a list of Alberta wood product brokers/wholesalers/suppliers and a table of metric conversion factors for selected forestry units.

We regret any errors in or omissions from this directory. Please notify us of any necessary corrections or new developments with your firm. Thank you.
